

# The trans-LINK WebPortal: Enhancing access to resources for trans-affirming post-sexual assault care

Joseph Friedman Burley (he/him), Sheila Macdonald (she/her), & Janice Du Mont (she/her)

**Moyo 2SLGBTQ+ Collaborative Meeting**

April 1, 2021

# Overarching Project Objective

To develop a **provincial intersecotral network** to aid in ensuring trans sexual assault survivors receive trans-affirming supports post-victimization

**Trans-affirming:** *Comprises the practices that recognize, account for, and address the unique experiences and needs of trans persons*

# Trans Engagement

With invaluable input from trans communities, as:

- Peer advisors
- Core members of the research team
- Advisory group members
- Representatives of participating organizations

We have been working to improve supports for trans sexual assault survivors

# Collaborating Organizations

# Egale

Rainbow Health Ontario  
Santé arc-en-ciel Ontario

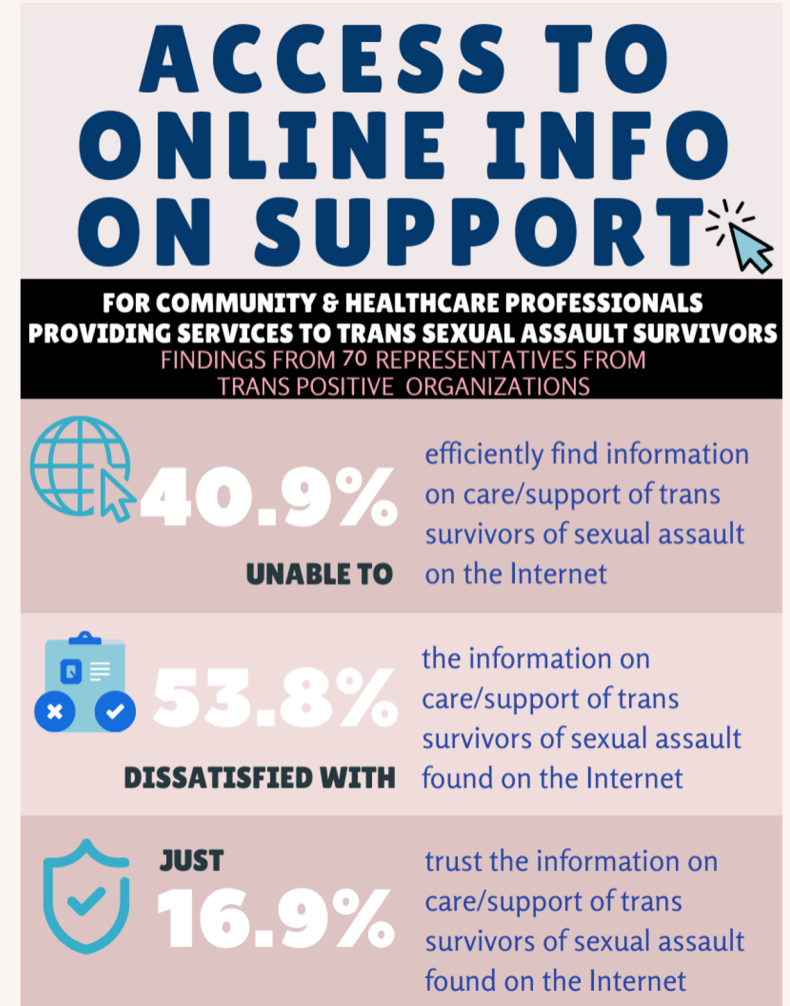

SAVIS  
of Halton

# Online Survey

Developed and circulated online survey to Network members to further focus and expand:

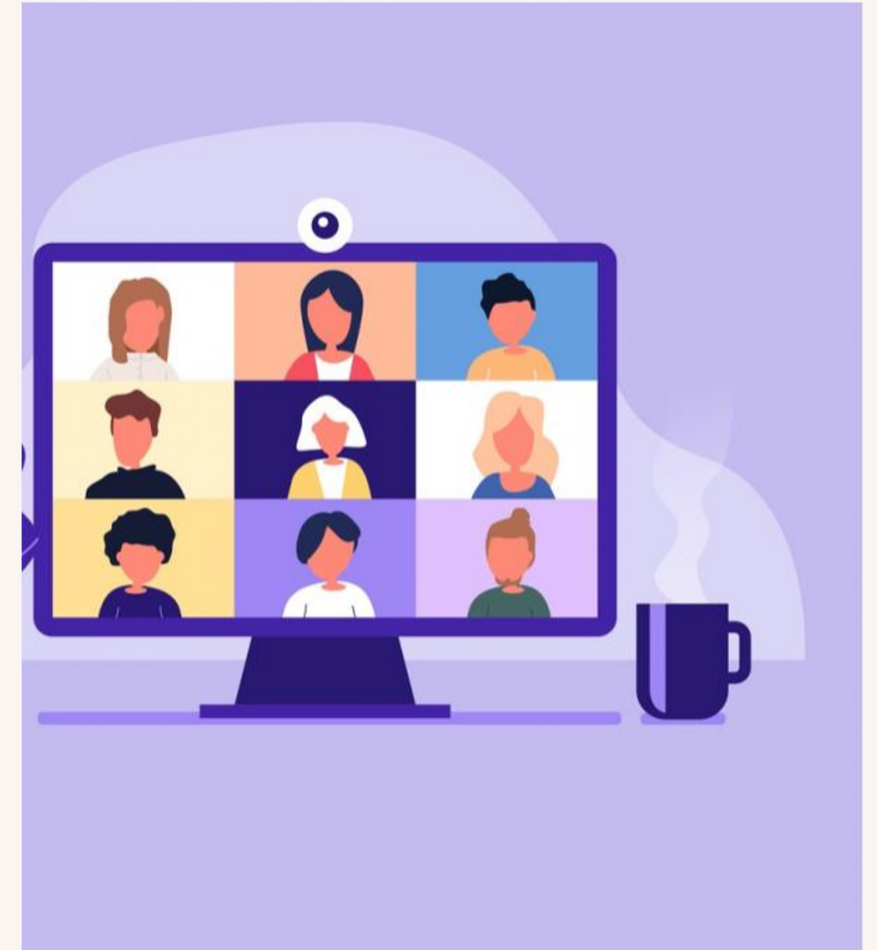

- Availability, accessibility, trustworthiness of information on trans care
- Importance of potential WebPortal resources and features (e.g., membership directory, information sheets, links to websites, existing guidelines, curricula/trainings, short videos/podcasts)

# Zoom Focus Group

Subsequent to populating WebPortal with resources:

- Held a focus group with **9 participants** representing trans communities and LGBTQI2S+ health and social service organizations
- Revised WebPortal based on Focus Group's review of individual resources and overall design
