

Mobilizing Partnerships to Advance a Provincial Intersectoral Network on Trans-affirming Practice to Support Sexual Assault Survivors

Trans-Affirming Care e-Learning Curriculum

Now LIVE on the trans-LINK WebPortal

After the successful launch of our in-person curriculum on trans-affirming care, we have recently uploaded our e-Learning curriculum for **free** access on the trans-LINK WebPortal.

Like the in-person version, the e-Learning curriculum covers important knowledge and skills necessary for the provision of trans-affirming sexual assault care, including Key Terms, Experiences of Sexual Assault, Interactions with Healthcare, Initial Assessment, Medical Care, Forensic Examination, and Discharge & Referral. The e-Learning curriculum splits this content into 9 interactive modules, which in total take about 1 hour and 15 minutes to complete.

Check it out [HERE!](#)

Based on their insights, we developed a social media campaign, **#TRANSformative Knowledge**, to raise critical awareness among providers about the damaging attitudes, beliefs, and reactions that often impede trans survivors' access to services. We launched the campaign on Monday, May 17, in honour of International Day Against Homophobia, Bipohiba, and Transphobia. Check out our 1st poster below and be sure to follow our project director, [Dr. Janice Du Mont](#), on Twitter for campaign updates and more!

Launch of the #TRANSformativeKnowledge Advocacy Campaign

Advocacy was identified as a priority area for Network action during our initial planning stages in Summer 2019 and has remained a cornerstone of our mandate since. That's why in October 2020, we held a consultation with the trans-LINK Advocacy & Accessibility working group to discuss the value, content, and strategy of a potential advocacy campaign.

On the Horizon: Evaluating the trans-LINK Network

We will very soon be conducting a social network analysis of the trans-LINK Network using an accessible and convenient online tool called PARTNER. This evaluation will begin to examine how we as a group can enhance communication, connectivity, and collaboration in the care and support of trans survivors of sexual assault. Your participation in this evaluation will be critical, so please keep an eye out for a survey invitation!
